Available on

Current banking feels disconnected & heavy.

THE GAP: Finance is not where conversation happens.

Friction in current ecosystem

Product Flow

ChatPay makes banking as simple as chatting with a friend. No apps to download, just instant transactions.

Avg Time: 12s

Why Now?

The Massive Untapped Gap

Growth Potential

Exponential

Messaging-First Population

Users spend 4+ hours daily on WhatsApp & Telegram vs. minutes on banking apps.

High Frequency Needs

Airtime top-ups & utility payments happen daily, demanding instant access.

Underserved by Banks

Traditional banks are too formal, expensive, and distant for micro-transactions.

Huge Informal Economy

Trillions in daily transaction volume happens offline or via mobile money.

The Access Gap

Business Model

We generate diverse revenue streams through transaction margins, commissions, and float interest.

Revenue Source	Pricing Model
 Transfers	Core Margin per transaction
 Airtime	3–6% commission per top-up
 Data Bundles	High-yield commission tiers
 Bill Payments	1–6% margin on utilities & cable

Frequency

Daily Usage

High retention model

Gross Margin

Financial Projections

Rapid scaling of revenue and profitability driven by chatpay's conversational network effects.

YEAR	USERS	REVENUE	COST	PROFIT
Year 1	50,000	₦110M	₦48M	₦62M
Year 2	150,000	₦630M	₦96M	₦534M
Year 3	400,000	₦1.82B	₦216M	₦1.6B

Year 3 Profit Margin

87%

↗

* Cost includes direct operational expenses and scalable infrastructure costs.

Why We Win

Existing solutions create friction. Chatpay removes it completely.

Type	Primary Weakness	User Experience
 Banking Apps Traditional Mobile Banking	 Heavy UX	Data intensive & complex interfaces
 USSD Codes *737#, *919#, etc.	 Limited	Session timeouts & text-only UI
 Wallet Apps Standalone Fintech Apps	 App Fatigue	Requires download & new account
 ChatPay Conversational Banking	 Frictionless	Native to messaging habits

Our Competitive Edge
“Finance is not where conversation happens” - Until Now
We meet users exactly where they spend 80% of their screen time.

The Team

Founder-led fintech expertise combining deep market knowledge with technical excellence for ChatPay.

Adeleye Odebunmi

Founder & CEO

A visionary leader with deep experience in the African fintech landscape. Focused on simplifying financial access through conversational interfaces and building Chatpay's scalable payment infrastructure.

📍 Lagos, Nigeria [in](#) Featured Profile

Core Competencies

Payment Systems

Deep understanding of digital wallets, switching infrastructure, and payment gateway integration.

Infrastructure

Building high-availability, secure cloud backends capable of handling millions of concurrent transactions.

Emerging Markets

Specialized knowledge in navigating regulatory landscapes and user behaviors in developing economies.

Conversational AI

Expertise in NLP and chatbot logic to deliver seamless banking experiences on messaging platforms.

Team experience spans leading organizations:

Join us in building the future of finance.

We are transforming banking from a destination app into a **natural conversation**. With finance embedded directly into messaging, we're unlocking the next wave of digital inclusion for millions.

Let's Connect

We are currently accepting commitments for our Seed Round. Reach out to request access to our data room.
